

Gamma Knife Center Tilburg
ETZ ELISABETH

INVITATION

Symposium 15 years Gamma Knife Center Tilburg

“More than once.....”
From repeated to fractionated Gamma Knife Radiosurgery

DATE	Friday June 9, 2017
VENUE	ETZ Elisabeth Hospital, Hilvarenbeekseweg 60, Tilburg; Aula, route 73
ACCREDITATION	Has been applied for
REGISTRATION	Free

Please register before June 2, 2017

REGISTER ONLINE

 **Elekta**

For questions, please contact Anja Visser -> gammaknife@etz.nl

REGISTRATION + COFFEE

09:00

MORNING SESSION

Sieger Leenstra – Moderator

INTRODUCTION AND WELCOME

09:45

Bart Chabot
Guus Beute

10:00

- Fractionated Gamma Knife Radiosurgery with Icon: the physicians perspective on indications

Patrick Hanssens

10:30

- Gamma Knife Radiosurgery with Icon: the physicists perspective ... why a Gamma Knife?

Jannie Schasfoort
Anke van Mourik

BREAK

11:00

11:30

- The Radiobiology of Radiosurgery

Monique de Jong

12:00

- Interaction between Chemotherapy/Immunotherapy and Radiosurgery/WBRT

Gerben Borst

LUNCH

12:30

AFTERNOON SESSION

Guus Beute – Moderator

13:30

- Fractionated Radiosurgery: Clinical Indications and Evidence

Bodo Lippitz

14:00

- Gamma Knife or Linac: what is the rationale, for which patients?

Marc Levivier

14:30

- AVM: the risk for hemorrhage in unruptured AVM's and how to manage unruptured AVM's post ARUBA study?

Bengt Karlsson

BREAK

15:00

- Management of Brain Metastases in 2017

Patrick Hanssens

15:30

- Repeated Gamma Knife Radiosurgery in Vestibular Schwannoma and Trigeminal Neuralgia

Jeroen Verheul

16:00

CLOSING REMARKS & CONCLUSIONS

Patrick Hanssens

16:30

DRINKS & VISIT GAMMA KNIFE CENTER

16:45

ABOUT THE SYMPOSIUM

On behalf of the Gamma Knife Center Tilburg, we have the honour to invite you to the Symposium that we organize to celebrate the 15th anniversary of the Gamma Knife Center Tilburg. During the last 15 years we have seen an evolution in indications to be treated once or repeatedly with Gamma Knife Radiosurgery as well as a technical evolution with the introduction of the Gamma Knife Icon. The Gamma Knife Icon allows frameless fractionated Gamma Knife Radiosurgery widening the scope of potential indications but also introducing new questions. Hence, the title "More than once....." *From repeated to fractionated Gamma Knife Radiosurgery*. Together with an outstanding international faculty we will address clinical and technical issues related to repeated and fractionated Gamma Knife Radiosurgery.

Guus Beute • Neurosurgeon

Patrick Hanssens • Radiation-Oncologist

FACULTY

Bart Chabot	- Writer	
Bengt Karlsson	- Neurosurgeon	Gamma Knife Center, National University Hospital, Singapore
Marc Levivier	- Neurosurgeon	Gamma Knife Center, Lausanne CHUV, Switzerland
Bodo Lippitz	- Neurosurgeon	Gamma Knife Center, Hamburg, Germany
Gerben Borst	- Radiation-Oncologist	NKI-AVL Amsterdam
Monique de Jong	- Radiation-Oncologist	NKI-AVL Amsterdam
Anke van Mourik	- Physicist	NKI-AVL Amsterdam
Guus Beute	- Neurosurgeon	Gamma Knife Center Tilburg
Patrick Hanssens	- Radiation-Oncologist	Gamma Knife Center Tilburg
Sieger Leenstra	- Neurosurgeon	Gamma Knife Center Tilburg
Jannie Schasfoort	- Physicist	Gamma Knife Center Tilburg
Jeroen Verheul	- Neurosurgeon	Gamma Knife Center Tilburg

ACCREDITATION HAS BEEN APPLIED FOR
